# sangoma connect

Mobile Softphone

Intuitive and **Easy to Deploy**

Allow staff to work from anywhere using the Sangoma Connect Mobile app for iOS and Android devices. Employees can enjoy voice, text, and communication using their business extension, while keeping their personal device information private. The intuitive onboarding process sends an auto-generated email to each user upon activation with simple instructions for them to download the app with instant log-in. It's as simple as that!

Secured Communications

Sangoma Connect users are protected by TLS/SRTP encryption which means their phone calls are kept private while on cellular or WiFi connections, and your business is secured from any unauthorized connections.

GET IT ON Google Play   Download on the App Store

Features Included

Audio Calls using your Business Extension
Make and receive calls using your mobile device, while protecting your personal phone number, using mobile data or WiFi connection.

SMS
Use your existing business extension to text clients for an enriched customer experience.

Do-Not-Disturb (DND)
Silence all inbound business calls when you don't want to be disturbed using the scheduling feature for automatic behavior.

Voicemail
Receive business voicemail directly to the app, allowing users to quickly listen to calls they have missed.
QuickDial with BLF
Create a list of favorite contacts for easy access with BLFs (Busy Lamp Field) that also show the current status of your colleagues.

Powerful Call Control
Users can blind & Warm transfer calls, record and have 3-way conversations.
